-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 22 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's arguments filed 4/22/2005 have been fully considered but they are not persuasive.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-9, and 11-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Catelas (Patent No. FR 2557441 A1).

Catelas teaches the structure as claimed (See Figures 1-12 and specification) including a backrest portion tiltable through a range of motion and providing passive automatically adjusted support of a user's lumbar region as said backrest tilts through its range of motion, according to the title and Abstract of the reference, an English version of which is provided with this office action.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-3 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Catelas in view of Parrish (U.S. Patent No. 5,556,169). and Lin(U.S. Patent Application Publication No. 2004/0232756 A1).

Catelas teaches the structure substantially as claimed but does not specify that the cushion comprises two layers of film sealed together about their peripheries, that the cushion is hermetically sealed, and said seal is formed by a method selected from the group consisting of heat sealing, ultrasonic sealing, RF sealing, and adhesives. However, Parrish and Lin teach such methods to be old. It would have been obvious and well within the level of ordinary skill in the art to modify the cushion, as taught by Catelas, to include comprises two layers of film sealed together about their peripheries, that the cushion is hermetically sealed, and said seal is formed by a method selected from the group consisting of heat sealing, ultrasonic sealing, RF sealing, and adhesives, since such methods are proven to be old, reliable sources of properly creating compartments within a fluid-filled cushion.

#### Remarks

It seems the language added to the Amended 1 still does not place the Application in conditions for allowance since French Patent FR2 557 441 is an office-type chair and office chairs have, especially the ones made for work stations, backrests that tilt for user comfort. Also, the title and Abstract of the French Patent clearly reads on the newly added language of the fluid-containing cushion providing passive automatically adjusted support of a user's lumbar region as said backrest tilts through its range of motion.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
